

Coronavirus Rapid Test Kit - Whole Blood™ Mk II (25 Tests)

Coronavirus (COVID-19) IgG/IgM Test Kit™

Coronavirus Rapid Test Kit – Whole Blood™ Mk II is a single use test kit for rapid detection of COVID-19. The test kit is for professional use only to be tested in laboratories by qualified personnel or by healthcare workers for point-of-care testing. With the prick of a fingertip and a small drop of blood, results are available in 7 minutes with accuracy exceeding 98%.

DESCRIPTION

Coronavirus Rapid Test Kit – Whole Blood™ Mk II is an IgM/IgG Antibody test kit. The test kit is intended for the presumptive qualitative detection of nucleic acid from COVID-19 (SARS-CoV-2) in whole blood from individuals with signs and/or symptoms of infection who are suspected of COVID-19. Testing is suitable for professional use only in laboratories, by qualified personnel, or by healthcare workers.

Note: Test results are indicative but not conclusive and should not be used as the sole basis to diagnose or exclude COVID-19 (SARS-CoV-2) infection or to inform infection status. Negative results do not rule out COVID-19 (SARS-CoV-2) infection and should not be used as the sole basis for health management decisions. Negative results must be combined with clinical observations, patient history, and epidemiological information. If contact with the virus has been made, follow-up testing with a molecular diagnostic should be considered to rule out infection. Positive results may be due to past or present infection with non-SARS-CoV-2 coronavirus strains such as coronavirus HKU1, NL63, OC43 and/or 229E.

BENEFITS

Benefits of Coronavirus Rapid Test Kit – Whole Blood™ include:

- **Fast:** testing in 10 minutes (Test: 3 minutes, Results: 7 minutes)
- **Accurate:** >98% (Sensitivity >95%, Specificity >99%)
- **Easy to Use:** clear step-by-step instructions
- **Complete:** no additional equipment required
- **Portable:** test kits can be transported easily

Coronavirus Rapid Test Kit – Whole Blood™ Mk II is a reliable (>98% accuracy) device for professional use only to test for COVID-19 past or present infection. Read package insert carefully and in full before use.

DETAILS

SKU

- DCTKBLC025

Contents

- 25 x Test Card
- 25 x Alcohol Swab
- 25 x Lancet
- 25 x Dropper
- 1 x Buffer Solution
- 1 x Step-by-Step Instructions

Dimensions

- 7.09 in x 5.51 in x 2.56 in, 28.2 oz / 18 cm x 14 cm x 6.5 cm, 0.8 kg

Storage

- Store below 86°F (30°C) away from light and moisture
